10-16-07-03. Prize pool and payment.

1. The prize pool for all prize categories must consist of fifty-one percent of each draw period's sales after the prize reserve account is funded.
2. The prize pool percentage allocated to prizes must be carried forward to a subsequent draw if all or a portion of it is not needed to pay the prizes awarded in the current draw.
3. If there are more than ten grand prize winning plays in a draw, the following applies:
 - a. For a draw on Sunday, Monday, Wednesday, Thursday, Friday, and Saturday, the maximum grand prize liability is two hundred twenty thousand dollars which is paid on a pari-mutuel basis among all grand prize winning plays.
 - b. For a draw on Tuesday, the maximum grand prize liability is four hundred forty thousand dollars which is paid on a pari-mutuel basis among the grand prize winning plays based on each type of prize. For example, if there are seven standard grand prize winning plays (\$22,000) and four Tuesday double grand prize winning plays (\$44,000), each standard winning play would be allocated \$20,000 and each Tuesday double grand prize winning play would be allocated \$40,000, computed as follows:

	Standard Prize	Tuesday Double Prize
Value of each grand prize winning play	\$22,000	\$44,000
Number of grand prize winning plays	x7	x4
Total value of grand prize winning plays	\$154,000	\$176,000
Maximum number of grand prize winning plays	10	
Actual number of grand prize winning plays	11	
Ratio of maximum number to actual number	<u>.909090</u>	<u>.909090</u>

Total pari-mutuel amount available for prizes	\$140,000	\$160,000
Number of grand prize winning plays	$\div 7$	$\div 4$
Pari-mutuel amount of each winning play	\$20,000	\$40,000

4. A "free ticket" prize must be a free quick pick 2BY2® ticket for the next upcoming draw.
5. The lottery may not pay a grand or set cash prize until after it receives authorization from the MUSL. The lottery may pay the prize before it receives the funds from the MUSL.
